RIOT AT THE POLLS.

Bloody Conflict Takes Place at Kansas City.

ONE HUNDRED SHOTS FIRED.

One Man Killed, Four Fatally Wounded and Two Others Badly Injured-The Conflict Was Between the American Protective Association and the Catholies. Names of the Dead and Wounded.

KAKSAS CITY, April 4.—The A. P. A. and the Catholics came together in a bloody conflict at the polls in this city yesterday. It can not be stated which side is responsible for the affray, as the partisans of each loudly charged the ether with being the full cause of all the trouble. Moro than 100 shets were exchanged between the combatants in less than that many seconds, and when the firing ceased the following named were lying dead, dying or injured on the pave-

the right arm.

The riot was the culmination of bitter feeling which had been manifested by action and words ever since the polls opened in the morning. The two antagonistic elements were solidly divided in their choice of candidates for mayor. The aggressive support that each side gave to its candidate during one of the hottest campaigns ever known in this city, engendered a strong sentiment of bigotry. It was therefore in no amiable mood that the workers of the respective factions came together at the different factions came together at the different polling places throughout the city and that these workers came expecting trouble to occur before the day wore away, is apparent from the number of deadly weapons that were drawn when the first pistol shot was fired.

The riot that resulted so fatally was the climax of a series of smaller riots that took place at other points earlier in the day between the same opposing religious factions. This riot took place on the Southwest boulevard, in the Fifth ward, very close to police station No. 3, and those who took part in it had been heated to the fighting temper by roports that had been hourly arriving at the station of brawls at other polling

places. Only one hour before it was known that John Cooley, a stonemason, was shot in the back and forehead by William Henry Walker at a voting place at the corner of Fifth and Campbell streets. and that the row was directly due to a fiery debute between the two men regarding the principles of the A. P. A., to which Cooley was violently opposed. That Cooley was not instantly killed was due simply to the fact that the pis-

to nsed was a mere toy of 22 caliber.

Tho A. P. A., which supported Webster Davis, the Republican candidate for mayor, had their own workers at the different polling places and they distributed in some precincts their own tickets bearing their candidates name and decorated with the American flag. Jim Pryor, a Fifth ward politician, antagonistic to the A. P. A., who supported Frank Johnson, the Labor and factional Democratic candidate, was active at the head of 50 constables which he got Justice Latshaw to appoint Monday night. It was said by some that these constanles were, many of them, irresponsible characters and were solely the cause of all the trouble. Consequently there were loud threats of mobbing them before they got to headquarters after the bloody riot was over.

It is claimed that one of Pryor's followers fired the first shot. That one was Mike Callahan, and he was a dead man the next moment. Then the battle began. The deputy constables at this polling booth and the workers of all the political factions crowded together in a solid mass about 100 strong, and every one of them seemed to be armed. For a minute or two the discharge of weapons sounded like the discharge of musketry by a regiment. Hundreds of citizens gathered at every point of vantage to witness the battle, which, however, was of short duration. These onlookers trembled with excitement. Many of the residents along the boulevard added to the general feeling of terror by leaning from their windows, shouting and gesticulat-

ing wildly. In less than five minutes from the time the first shot was fired, however, the blue coats from station No. 3 had uppeared upon the scene and quieted tho disturbance. With their first approach, the fighting political workers ceased hostilitles and made a quick effort to

hido their weapons. Pryor's men are elaiming that Callahan was an innocent victim. They assert that it was Jerry S. Pate, an A. P. A. man, who first shet, and that was the shot that killed Callahan. Pate was serving as a constable, having been appointed especially by a Westport official to serve a warrunt for the arrest of Jim Pryor, John Pryor, his son, and Bert Pryor for an alleged felonious assault upon a citizen earlier in the day. Anyway, he and Callahan met, had some words and either one or the other fired

the shet that commenced the conflict. Prvor's side of the slory gets some color from the fact that Harry Arthur, who is, however, one of Pryor's followers, says he himself is the man who shot Pato in the face. According to his story he was standing on the bridge that

man came from the other end of the bridge in a buggy, with four men running behind him. When Pate reached the spot where Arthur was standing, he ininped out of his buggy with a gun in his hand and grabbing hold of Harry McGovern, he said: "Here's one of the men we are after. I've got a warrant

for your arrest."
"I went up to Pate and said: 'You can't also him.'

"Jim Todd stepped out too and said:
"No, you can't take me either."
"I'm a deputy constable and you've got to go," said Pate, and then, turning to the man in the buggy, said: "Read the warrent."

the warrant.'

""Inst then Mike Callahan came run-ning toward us from the northern end of the bridge. Ho rin up to Pate and asked him what right he had to carry a placel, and domanded to see his permit. The two men exchanged angry words, and then Pate aimed at Callahan and

and then Pate aimed at Callahan and fired. Callahan returned the fire, and then I and the rest of us began to shoot. I shot Pate."

While the riot was in progress it is said that members of the A. P. A. telephoned to Armourdale and Argentine, strongholds of that order, for reinforcoments for 1,000 men and that the assurance was given that the men would

ments for 1,000 men and that the assurance was given that the men would shortly be on the way. Members of the A. P. A. in this city and Armourdale deny the truth of this story.

About a dozen arrests have been made in connection with the rioting on the boulevard and the police are working on evidence which thy have gather d from the men now under arrest, and it is the men now under arrest, and it is probable that further arrests will be made. No further disturbance has occurred, and it is thought that there will

be no further trouble.

Webster Davis, the straight Republican candidate for mayor, was elected by a good round majority over all other tickets, carrying with him the entire

Republican ticket. Dispatches to the Associated Press from all over the state of Lamsas and the territory of Oklahoma go to show that with but few exceptions, where party lines where distinctly drawn, the Republicans elected their tickets.

SIMILAR RIOT IN CHICAGO.

A Number of People Shot and Several of Them May Die.

Chicago, April 4.-The election of an aldermanic ticket and two tickets in the field yesterday was attended by many brawls and disturbances. The ball opened with a free-tor-all fight in the Twenty-third ward, in which several ward heelers and policemen were badly bruised. Later in the day the followers of John Coughlin, the aldermanic candidate in the First ward, fired on a bandwagon bearing the banner of Skakel, In-dependent Democratic candidate. A volley of pistol shots were fired, breaking windows and causing great excitement.

but no one was hurt.

John Bell, a Coughlin heeler in same ward, was shot twice in a saloon brawl by Louis Luther, a Skakel follower, and may die, and in the Fourteenth ward Samnel Phelps was shot at a polling place by John Marshall and may not recover. Few arrests were made.

The Republicans elected 23 aldermen the Democrats 11. Seven Republicans succeed Democrats, two Democrats succeed Republicans.

In the town elections the Democrats carried the entire West Side ticket, and three out of four offices in the south town. The Republicans carry the north town by 5,000. Scanlan, the Democratic candidate for assessor of the west town, is elected by 8.000 plurality, about 5,000 more than the next highest successful candidate on the ticket. The Democratic majority in the south town ls in all cases close, a few hundreds dividing the totals.

The proposition offered of annexing the towns of Evanston and Morgan Park to the city carried by over 20,000,

HAMMOND, Ind., April 4,-Albert Looker, who shot and instantly killed James Contoy and William Cleary. game wardens on Tolleston Hunting and Fishing club's grounds in John Hargin's saloon, at Tolleston, March 21, has been acquitted by Judge Morlock of the city court. In discharging Looker the court said that from the evidence introduced ho was led to believe that the two men came especially prepared to cano the body of somebody from the fact that they were heavy brass knuckles under their gloves. Prosecutor W. B. Mc-Mahon of Crown Point, who conducted the case for the state, said that he bolieved the knuckles were put on after the men were killed and was greeted with hisses, which were only stepped when the judge threatened to clear the court.

After his discharge Looker was borne in triumph from the courtroom on the shoulders of six sturdy men and taken to a hotel, where he held a reception. Prosecutor McMahon threatens to have Looker rearrested on a charge of murder, but no one here paid any attention to that. People throughout Lake county have expressed their opinions freely since the shooting, and generally came to the same conclusion: "That justice had been meted out to two of the most brutal bullies that ever disgraced Lake coun-The case has created considerable excitement, and many prominent people throughout the state send encouraging letters to Looker.

ONE MAN IN CONTROL.

Governor Tiliman Assumes Sole Charge of the State.

AN OFFICIAL PROCLAMATION.

Notice Given That He Has Assumed Sole Control of All the Cities and Municipal Forces of the Entire State-A Congressional Investigation Will Probably Be Made of His Actions.

COLUMBIA, S. C., April 4.--Governor Tillman has issued a proclamation giving official notice to the municipal authorities of every city and incorporated town in the state and to the police marshals, that under the powers given him by Section 519 of the statutes he assumes sole control of the whole force of munleipal police and marshals of the several cities and incorporated towns of the

They are ordered to enforce all laws on the statute books, tegether with all municipal ordinances and orders from municipal authorities not inconsistent with the purposes of this proclamation.

As soon as the emergency shall no longer exist, the governor shall relinquish control and restore the former status.

Governor Tillman has received the following telegram from Clerk of Court

following telegram from Clerk of Court W. H. Ingram at Sumter:

"J. J. Dargan met the northbound train yesterday and arrested Constable Cain on his way to Columbia in custody with McKnight, deputy sherid. The citizens generally are not responsible for the arrest. The sherilf is keeping the parties at their own request. No danger threatening the constables and no occasion for action on your part." easion for action on your part."

Concerning this the governor said: "It might as well be understood once and for all that the constables are state officers and will continue to discharge their duties under my orders. No interference with them except by regular legal process will be tolerated, and they will every one appear at Darlington when called for by the civil authorities."

"Over nt Darlington," he said, "these bandbox seldiers, these soldiers turned politicians, pranced all over the country and sent for reinforcements to barrooms and whisky men, but they have never fired a shot at a single constable and they did not want to find them. Why didn't they lynch the man they claimed made the trouble? They have slandcred themselves by saying they would lynch those who did not cause the trouble and then would not lynch the man who they say did cause it. Body politic is in a fever because the people of Charleston and Columbia have taken vipers to their bosom in the shape of newspapers which daily distill poisou, They try to sting me personally by abuse and slander, but I wear a coat of mail that they can never pierce-an honest heart looking to the welfare of the whole

The governor did not fear civil war. He said: "It will not come and can not come, because the people are in the saddle and intend to remain there. One man told Mr. Yelldell here that he came from Edgefield, my own county, with a shotgnn to kill me Friday night. I will not mention his name. Threatened men live long and I have never felt nneasy.

I shall not budge an from the stand that 1 have taken as the people's governor. You may imagine from this that I aggravated the trouble, but I am simply going to uphold the law. I could not done what I have unless I controlled the rallroads and the telegraph lines. The revised statutes of the state give me still another sword of Damocles, and tomorrow I shall cut the thread and use it. Section 519 gives the governor power to take control of all the police in the city. The mayor and the city councils have refused to make the police do their duty. I intend to see that they do or I will discharge every one of them. From this day the constables shall watch the policemen and report to me whether they are doing their duty, and if they do not obey my orders and if the authorities don't cooperate with me I shall call the legislature togother and we will have the power given the executive to remove those men and appoint others who will obey the

At this point Mr. Early, a cousln of Mr. Norment, who was killed by state constables, yelled out, "Why don't you obey the law yourself?" This created a big commotion in the crowd. One of the governor's sympathizers yelled out, "Shoot him," and both factions rushed up. The governor called for silence and Chief of Police Radcliffe jumped off his horse and grabbed Early, commanding order, and took him away,

The governor continuing said that those who are opposing him must submit, adding: "I have thousands of good men who are ready to respond and those who are in rebellion and resistance must get out of the way, for the engine is on the track. I have got the throttle and I

An order was then read to the troops commanding them to return to their homes and extending thanks to the gallant and patriotic soldiers and citizens who at a moment's notice dropped their various avocations and pursuits to respond to his call.

CONGRESSIONAL INVESTIGATION. A Committee May Inquire Into Clovernor

Tillman's Actions.

Washington, April 4.-Mr. Grosvenor of Ohio, late yesterday evening, introduced in the house a resolution calllng for a special investigation of Governor Tillman's action in South Carolina in seizing railroad property and tele-graph lines engaged in interstate commerce, and with armed force and violence establishing a censorship of the daily and weekly press of the country, and prohibiting the transmission of news dispatched to the newspapers.

The resolution directs the committee

on interstate and foreign commerce to inquire by what law or authority such acts have been committed, and whether the laws of the United States have been violated. In his remarks on the resolutlon, Mr. Grosvenor said this was the first time in the history of the government that such a censorship of press dispatches had been established.

The resolution was referred to the house committee on interstate and foreign commerce, of which Representative Wise of Virginia is chairman. The latter says the resolution will probably be considered at the next meeting of the committee. Mr. Wise said: "The transmission of news and other telegraphic information from one state to enother information from one state to another appears to be clearly within the rights of federal supervision. The action of Governor Tillman is certainly remarkable, and it is important that his action be inquired into."

Representative McLaurin of South

Carolina telegraphed Governor Tillman. giving the general foatures of the Grosvenor resolution.

AN ANTI-LIQUOR WAR.

Greenwood Is in Arms Against Two "Quart" Houses.

GREENWOOD, Ind., April 4.-This town is a unit against two saloons which have recently been established here. There have been no saloons here tor years until John Arbuckle, with a government license, opened a "quart" house not long ago. He was followed by an-other man, who opened a government place. The county commissioners have ert all the powers of my ornce to see that | declined to license sa'oons. The town authorities are opposed to the hour traille, and the citizens have taken steps demnation of the militia companies that to rid the community of these establishments at any cost.

A secret committee of 10 is to be anpointed by the chairman to adopt means that are not to be disclosed until everything is ready for action, to get rid of the liquor places. Representations were made, showing how the morals of the community had already been affected by the two "quart" houses. The sentiment of the community is shown by the fact that a barkeeper imported from Indian-apolis by one of the saloonkeepers could not find a boardinghouse in the town and was obliged to go to the country.

FIGHTING STILL GOING ON. Indians and Cowboys Killing Each

Other Off. KANSAS CITY, April 4.-A special to The Times from El Reno, 1. T., just received states that the troop of cavalry sent out to quell the fighting going on between the Indians and cowboys has sent a courier back to the fort for reinforcements. It is reported that another battle has occurred and that several men

on both sides were killed and wounded. The rumor to the effect that the agency buildings have been burned by the Indians is corroborated. The scene of the fighting is so remote that particulars are unobtainable at this time. It is reared that great loss of life will be caused before reinforcements can reach the troops now at the front.

Eight Persons Severely Injured.

PROVIDENCE, April 4.—Fire broke out in a barber shop under the hall in which a dramatic performance was being given last night by the Young People's society of St. Mary's Catholic ohurch at Olneyville. Mrs. Kennedy was so badly hurt that it is feared she can not live, and an unknown woman had her back broken. The fire was quickly extinguished.

GROWING ALARMING.

Critical State of Affairs in the Coke Region.

BLOODSHED HOURLY FEARED.

The Strikers Without Food and Threaten lo Raid the Stores-Thousands of Them Concentraling For Some Combined Movement-State Troops Will Probably Be Called Out at Once. Uniontown, Pa., April 4.—The situa-

tion throughout the entire region at the close of the second day of the big strike of coal miners and coke workers is very alarming, and it looks as if bleodshed and destruction of property will only be averted by resort to the military power As in 1891, the strikers have been re-

ceiving food supplies from the company stores, which is now cut off from them. The great herde of foreigners require food and have not the means to obtain it. The only way it can be secured is by sacking the company's stores, but to do this they must overpower deputy sheriffs who are standing guard with Winchesters.

The operators in the region are very apprehensive and fear that the strikers will destroy property in every section of the region. Eleven thousand strikers are bivouacing at different places between here and Scottdale, and it is generally believed numerous raids will scon be made on the company's stores. If an outbreak among the strikers takes place anywhere in the region, the inevitable result will be the loss of life.

result will be the loss of life.

The strikers realize the danger of an encounter with the deputies, but their condition is desperate and may attempt to overpower the guards. About 300 deputies are standing guard at the different works. Their forces are scattered, and should an attack be made by one of the big mobs it would be certain death to offer resistance.

A number of the Frick plant men are still at work in the mines and refuse to

still at work in the mines and refuse to join the strikers in camp. When the miners come up they will be asked to join the strike, and if they refuse it is likely, from the action of the mobs, they will be roughly treated. Terror reigns from one extremity of the region to the other, and every hour brings the possibility of a deadly conflict between the mols and the authorities, and the destruction of property by fire and dyna-

In the houses of the strikers it is said a large number of shotgans and rifles are stored which will probably be brought into use unless the situation changes.

An imposing force of strikers, fully 5,000 of them, are now forming to raid the southern region. Reports made by the deputies who are watching the movement, say the raiders will start with the purpose to march over this section and make the strike complete in the southern region at least by driving out the last man now at work and forcing a general shutdown.

The only operators now standing out against the strlkers are the H. C. Frick company, the McClure company and W. J. Rainey. They make a bold stand and say they will fight the matter to a finish. The Frick men are at work wherever they have not been driven off by force, If a sufficient number of deputies can be obtained to guard them, Frick will contime to operate all his works, as there are plenty of men who are willing to

work if they can do so in safety, Three hundred men, armed with revolvers and Winchester rifles, are on guard in this region.

THREE CHILDREN PERISH.

A Midnight Fire in a Humlet Near Vaiparaiso, Ind.

VALPARAISO, Ind., April 4.—A horrible catastrophe occurred Monday night at Calumit Pit, a small station about 15 miles west of here, resulting in the burning to death of three children, and the total destruction of the house and contents. The fire was caused by a lamp

The house was occupied by Edward Rice, section foreman on the Nickel Plate at that place, and his family and a number of the sectionhands. Fire was discovered by Rice about 11 o'clock, and he hastily awoke the immates and assisted his wife and tabe, who slept on the ground floor, to a place of safety. Missing the three other children, who,

with the sectionhands, occupied the second story, the frantic father rushed into the rupidly burning structure to get them, but the flames had made such headway that he was driven back by the intense heat. Ho was horribly burned on the face and hands and will likely die.

Several of the sleeping men barely had time to escape, being unable even to partially clothe themselves. One of them occupied a bid with one of the children, but in the excitement forgot the sleeping child and hastily jumped from the second-story window.

The ages of the children were 8, 6 and Ayears respectively. Not a thing was saved, and the loss will be several thousand dollars.

MASON COUNTY VERSUS DEGMAN.

What the Superior Court Says in Affirming the Judgment of the Circuit Court.

In affirming the case of Mason County against Degman, the Superior Court says When a county obligated Itself to pay a turnpike company a certain sum per mile for the building of its road, and after the road was built the county, upon report of commissioners that the road was two miles and four rods long, paid over to the appellant, as President of the road, knew that the road was in fact only one and three-fourths miles long his demanding and recciving of the county pay for two miles and four rods, even though technically based upon the report of the commissioners, should be treated as a fraudulent représentation, aud he is liable to the county for the amount paid him in excess of what was due upon the actual length of the road. And it is immaterial whether or not he derived benefit.

COXEY IN PITTSBURG. The Commonweal Army Goes into Camp

For Two Days.

PITTSBURG, April 4.—The commonweal army has arrived. It reached lower Allegheny at 1 o'clock and was met with bands by the Iron Moulders' union, patternmakers, boilermakers, bakers and other labor organizations and a large concourse of people. When the city line was reached a halt was taken for lunch and at 2:30 o'clock the army marched to Exposition park, where it weut into eaup for two days.

Long before the arrival of the commouweal, the streets in the vicinity of Woods' Run were packed with people. Director Murphy of the department of public safety became alarmed as the crowd was wrought up to a high tension of excitement, and refused to allow the army to come iuto the city by that route. A change was then made, and Coxey and his followers marched in over the Brighton road.

While Superintendent of Police O'Mara does not anticipate the slightest trouble from Coxey and his cohorts during their stay here, ho has made preparations to stop any trouble, if it is found neces-

It was ascertained that Coxey and a large number of his followers have doeided to take a trip through the southern states as soon as his mission in Washington is fulfilled. The decision was arrived at a day or so ago, and the trip will be made with a view of converting as many southern people as possible to the ideas advanced by Coxey.

As at present figured ont by Coxey, ... will require the best part of the two months for his army to get to Washington and see the Coxey measures acted upon by congress. Then the army, or as much of it as remains intact, will make a trip through Virginia North make a trip through Virginia, North Caroliua and South Carolina, being joined in the latter state by Fryo's band of Texas Coxeyites. The scheme is to win the southern farmers over to the Coxey-Browne-Smith ideas. When this is completed the task of the reformers will be fulfilled and the army will dis-
